Sharper, faster imaging.

Designed to make ultrasound easy to use. Simply connect the probe to your compatible iOS or Android device, select from 22 presets in seconds with the swipe of a finger — and start scanning.

Cardiac

Perform fast TTE, evaluate suspected valve disease, see the heart in two planes simultaneously, and automatically calculate ejection fraction.

Cardiac

MSK

Assess tears and fractures and support return-to-play decisions, in the clinic or on the sidelines.

MSK

Lung

Evaluate respiratory distress and reliably detect the presence of B-lines.

Lung

Bladder

Get automated bladder volume calculations, along with a 3D rendering, in moments.

Bladder

All comparative claims are made relative to first-generation iQ product.

One probe.
Five imaging modes.

Five imaging modes, with distinct applications across specialties.

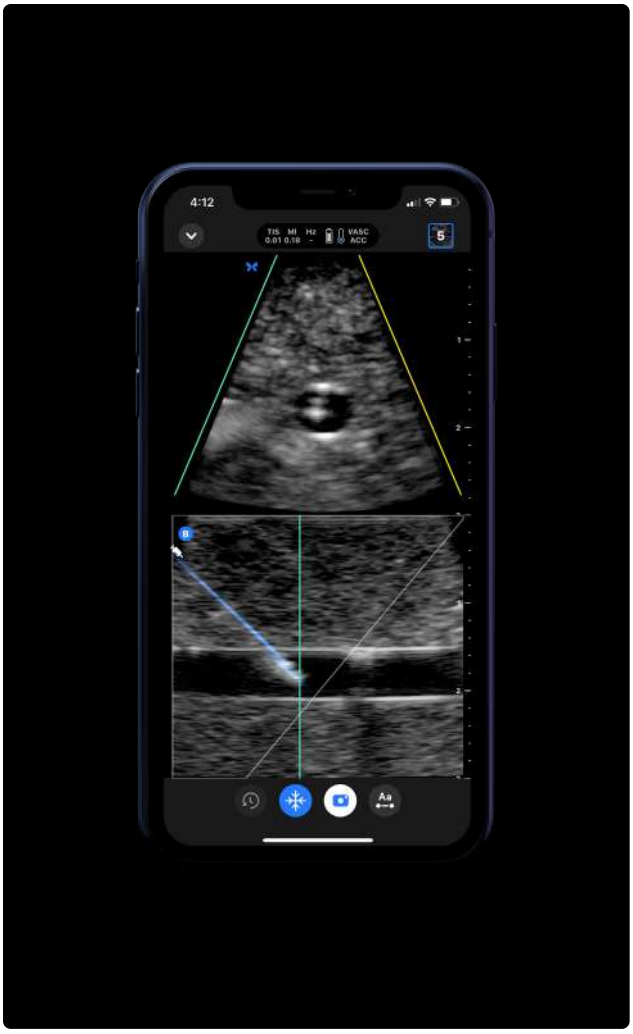
B-mode

M-mode

Color Doppler

Power Doppler

Pulsed-Wave Doppler



This is a recreation of a hospital, and doesn't create an endorsement by any HCP, hospital or laboratory.

Guide procedures with confidence.

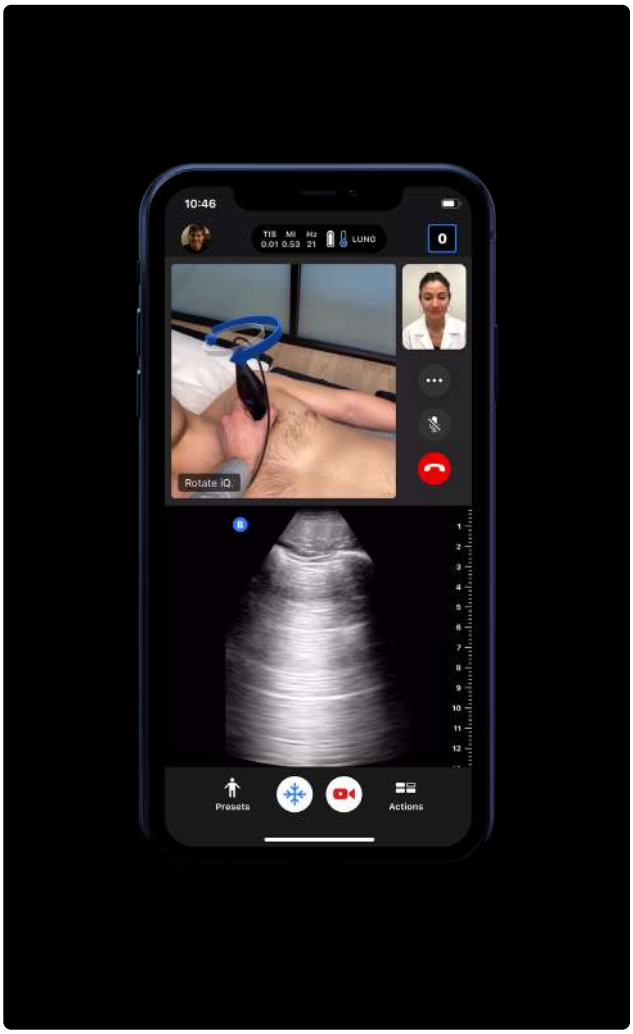
Precise guidance for difficult line placements. Visualize the long and short axis simultaneously with Biplane Imaging™, and highlight needles on-screen with NeedleViz™ technology.

Connected care is stronger care.

Go from scanning to documenting in moments. Butterfly iQ+ is paired with our software's storage and collaboration features, to help you get the most out of every image.

Give or receive ultrasound guidance, wherever you are.

Video call with collaborators while scanning, view images in real-time and remotely adjust preset, mode, gain and depth.



This is a recreation of a hospital, and doesn't create an endorsement by any HCP, hospital or laboratory.

Getting a consult: now as easy as sending a text.

Send out studies, with sensitive information removed, without leaving the Butterfly app.

Store every image, safely and securely.

The Butterfly cloud offers unlimited, secure image storage. Team image archives enable real-time commenting and seamless study documentation via customizable worksheets.

TeleGuidance™ is only available for iOS devices.

Designed for learning.

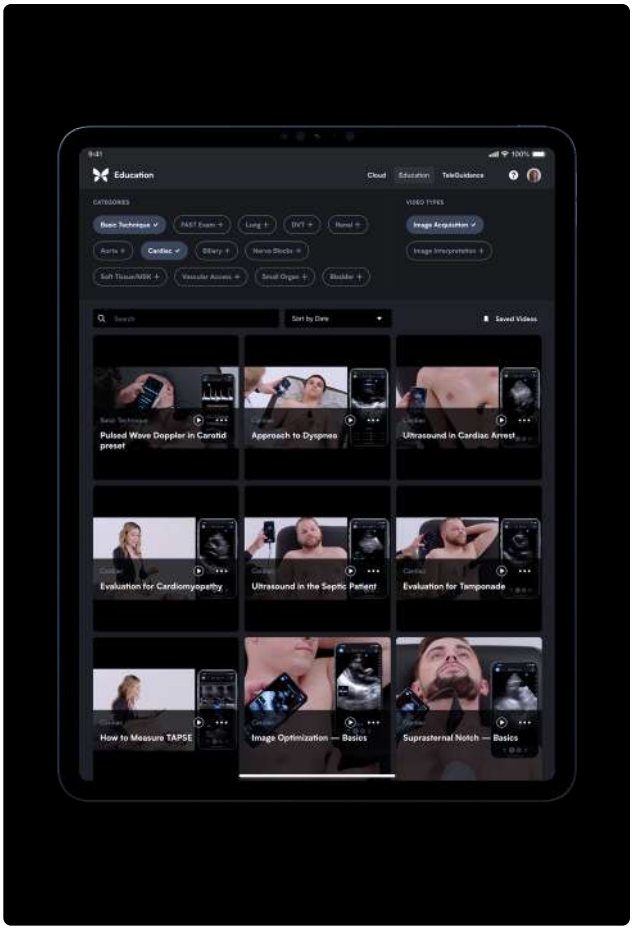
Robust educational offerings that meet you where you are in your ultrasound journey.

Get real-time scanning guidance.

Educational View Guidance grades your scan as you maneuver the probe, to help you find the right angle.*

Find confidence in moments.

Access quick, expert-led video tutorials covering dozens of applications, all without leaving the Butterfly app.*



Built to last your toughest shifts.

Ready when you need it. iQ+ is proven by military-grade† testing to withstand being dropped from waist-length. Water and dust resistant,‡ and equipped with a replaceable stomp- and compression-tested cable.
